

The DERAPAGE Tornado Super light chassis (SLC) holding the bends

The Tornado Super Light Chassis (SLC) refreshes the traditional Derapage model, and most highly awarded eyewear in optical history, with a new decisive look, creating eyewear that is high-tech, ultra light and easy to wear.

A collection that has come in numerous variations in previous years: entire rounded acetate or nylon frames with or without steel lugs in different original shapes and colours.

In 2018 SLC presents a series of mainly masculine frames with streaked steel lugs soldered to the ultra-light frontal frames.

Colours are subtle variants of black, brown, gun metal grey and blue. Hinges are riveted to the lug using luxury jewellery manufacturing techniques.

THE LOOK IS FOR THOSE WHO DARE.

since 1985
