

Sun by Derapage: from glorious past to future

A sunglasses collection in pure DERAPAGE style that renovates classic frames and that innovates metal and acetate manufacture.

Reworked, the steel photo engraved streaking on the bridge of the new Tornado HP (High Protection) models: a particularly evident high bridge, soldered to the milled rims of the frontal frame for an idiosyncratic aesthetic that does not compromise the lightness of the glasses. Completed by an etched streaked lug and ultra-thin sheet steel temples.

Colours are black, gun metal grey and brown with unisex and masculine shapes with accentuated rounded rims.

The **Acetate Racing** sunglasses model for men revisits the 2004 frame that won the Silmo d'Or in Paris. The same concept reworked with modern technology, joining a frontal frame in crystal acetate to a black acetate profile on the top of the frame, visible but discrete. The temples are in black Havana with terminal tips branded with D for Derapage.

THE LOOK IS FOR THOSE WHO DARE.

since 1985
